"LIKE A HIGH-CLASS CLUB"

That's the remark made recently about The Hollenden by a man who has patronized this famous hostelry for over twenty years.

And to the thousands who think of this man does there are added daily many who become regular patrons because of the rare combination which The Hollenden offers—the charm of tradition and congenial surroundings, plus quality service, plus up-to-date of equipment.

Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Druggists Not to Take a Cent of Anyone's Money Unless Allenru Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging, he decided to let sufferers everywhere know about his discovery through the newspapers. T. J. Evans' drug store has been appointed agent for Allenru in this vicinity with the understanding that he will freely return the purchase money to all who state they received no benefit.

Mating of Marcella.
After playing the part of a Canadian girl in the far Northern woods, wherein she used furs and dog-sleds and lived the hazardous life of a dance-hall denizen, Dorothy Dalton will appear in a strong domestic drama entitled "The Mating of Marcella," written by Joseph Franklin Poland, and directed by R. William Neill under the supervision of Mr. Ince.

As is the case in all of her photo-plays, Miss Dalton is finely supported in "The Mating of Marcella," which will be displayed at the Auditorium theatre today and tomorrow.

Style Show.
Ivan D. Martin and His Live Models are the Auditorium extra added attraction this evening at which time The 3rd Annual Style Show will be given in connection with the picture "The Mating of Marcella," a Paramount picture in which Dorothy Dalton is the star. Mr. Martin this year promises the best program he has ever given. Newark people—the merchants who help make this the success it is, also have a greater variety of wearing apparel, etc. Two styles shows each evening are promised.

The Bride Shop.
It goes without saying that any theatrical production that earns the good

husband—in order to protect the name of the mother of the babe and to shield the child from a stigma.

Miss Travers was at her best as Lady Marion Chatham. Her support is good and it is shown tonight for the last time.

"One of the Finest."
The Alhambra will offer tomorrow Tom Moore in the Goldwyn Picture "One of the Finest."

Larry Hayes (Tom Moore) is a mounted policeman in a fashionable park. He is the son of a former commissioner and lives with his widowed mother, whose wish that he follow in his father's footsteps is responsible for Larry's abandoning his law course and wearing a uniform. Another member of the family is a tiny girl, Mary Jane Andrews, taken in, with her mother's consent, when her father has been sent to prison.

When traffic is at its peak one afternoon Officer Hayes has cause to single out a speeding limousine and gallop after it. He reproves the chauffeur and is glared at by a pair of haughty blue eyes inside the machine. They belong to Frances Hudson, daughter of a capitalist, whose anger at the policeman's performance of his duty takes an unpleasant form. She sets about to have him dismissed from the force. Before anything is accomplished, however, they meet again, when Larry

PALE WOMEN NEED A BLOOD BUILDER TO REGAIN COLOR

Sickly, Sallow People Find Dr. Williams' Pink Pills Improve Health and Appearance

"My sallow, wax-like complexion has become clear and bright," states Mrs. Stella Shaw, of No. 308 Columbia street, Hudson, N. Y., who had suffered for years from anemia until she found the right tonic.

"I hadn't been well for six years," she says, "following an attack of jaundice. I was tired and without ambition all the time. Whenever I would lie down I had severe dizzy spells and seemed to fill up and choke. My appetite was poor and I had pains across my shoulders.

"I had heard of Dr. Williams' Pink Pills several years ago and when I saw them mentioned in a newspaper I procured a box and began treatment with them. My condition improved so much after the first box that I continued taking the pills until I had regained my strength. I no longer become exhausted easily and have plenty of ambition for my work. My appetite is excellent and the pain across my shoulders has gone. I not only feel like myself again but my color no longer causes people to think I am seriously ill. I can't speak too highly of Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills are sold by all druggists or direct from the Dr. Williams' Medicine Co., Schenectady, N. Y., 60 cents per box, six boxes \$2.50, postpaid. Write for the free booklet, "Building Up the Blood."

THE OLD AGE GAME.

Now the plot begins to thicken, as it were. The legislative survey committee, with "experts" employed to investigate state officers and departments with a view to consolidating the same, will not be ready to report for some months hence when the legislature convenes.

It now becomes patent that the Republican-selected committee is playing the age-old game and when the legislature convenes in December an increase in the \$30,000 appropriation will be asked for.

The report of this committee will be made about the time the campaign opens, its sole purpose being, of course, for campaign purposes and to divert the public attention from the legislative flase of the general assembly. Stenographers who serve at legislative sessions and at G. O. P. headquarters are found on the committee payroll.

To those who follow political events it is amusing to see the very persons who made the fight for Frank B. Willis on a platform of decentralization of state departments and commissions, now putting on the reverse and calling for centralization. The insincerity of men who denounce Governor Cox for combining many departments under single heads, is so apparent that the thinking men of Ohio will not be hoodwinked by this latest political four flush.

Had the legislature and the G. O. P. leaders honestly desired a fair survey, they would have named a non-partisan committee, consulted with the Governor, and it is likely that good results might have been obtained. But the real interest of Ohio is not the real interest of those who planned the legislative survey.

Governor Cox has tendered the commission named by the legislature to survey state offices, all of the assistance in his power, together with the assistance of departments under his control. The sincerity of the committee will be tested by the manner in which they avail themselves of the help of the Governor and the information he is able to impart to them.

It costs something like \$2,000 an hour for each hour the senate is in session. Now mathematicians are figuring the great cost to the American people of the treaty-killers' fight against ratification over many weeks in the past and many weeks yet to come.

President Wilson has met every argument of the treaty opponents but of course to those who will play the partisan game through to the finish, no argument or reasoning on earth will reach.

Seven weeks since President Wilson asked for Congressional action on the high cost of living to assist various departments in their campaign—and yet congress has done practically nothing.

THE SENATE DELAYS.

The President appealed to the senate for quick ratification of the Treaty of Peace because while we are in this period of no peace and yet no war, the unrest in the nation is critical. The senate has not hurried in the least, rather has it delayed the consideration of peace. Strikes over the country have been numerous. Now comes the steel strike and a nation holds its breath.

The senators say peace has nothing to do with the unrest, with strikes or with high cost of living. But most people know better. Conditions in America today are getting worse rather than better because of the senatorial delay. And there is little hope ahead. Who is there in America who wants to plan ahead and venture in a big way in the commercial world, not knowing what the future is to bring? Unless conditions are stabilized there are dire times ahead. Some men in America think that only by means of a great strike, or a great lockout, can conditions be brought back to normal. But the thinking men of America know that this is a false view. They know that the normal will only come with increased, even capacity production. The whole world is waiting for the goods from American fields and factories. Americans are waiting for the opportunity to capture the markets of the world and for the first time in American history we have the ships to do it with.

And with all this we are promised weeks and weeks of senatorial oratory on the Treaty. Think it over.

SENATORIAL EXTRAVAGANCES.

In the opposition to the League of Nations certain Republican senators seem to have specialized their attacks so as to run the gamut of all the racial, sectional and personal prejudices that could be formulated as their allies. One of them represents England as the author and chief beneficiary of the League. Another pictures Japan as the father of plots against the white people. A third denounces the harshness of the terms imposed on Germany. A fourth plays upon the single chord of Americanism, which he says is threatened by provisions of the covenant. Still another alleges that a particular ecclesiastical control is the purpose of the League.

If any one of these statements were true—and they are all pure assertions—the others could not fail to be false. It would be absurd, for example, to imagine England or France, with their colonies in Asia and Africa, assisting or permitting Japan to make the League a vast coalition of dark races against Caucasians. It is no less ridiculous to suppose that any nation, whatever the religious persuasion of its people, would be willing to surrender its secular affairs to an ecclesiastical overlord. Even more grotesque is the hypothesis that President Wilson and Henry White, one a Democrat and one a Republican, but both Americans, have planned or sanctioned the diminution of American power and prestige in the League of Nations.

It is bad enough that these hostile senators should have recourse to silly and unjust arguments. It is regrettable that they should ignore consistency among themselves in this campaign of reckless misstatement. It is incomparably worse that by innuendo, if not by direct charge, they represent the head of the nation and his sworn advisers as betraying the honor, the interests and the very safety of the country in behalf of foreign governments, white, black or brown.

LIFE INSURANCE.

(Pittsburgh Gazette Times.)
The astonishing thing about life insurance is that this form of protection has been sold, it ought to be sold, by the masses, just as shelter, food and clothing are. Often it means those very essentials to people suddenly bereft of their means of support. At least it means them without loss of self-respect, without the humiliation of dependence being added to more poignant bereavement. By the married man life insurance should be deemed as necessary as provision for paying next month's rent, yet the majority have to be persuaded if not dragged into applying for policies. After a man gets a policy and comprehends its significance it becomes one of his prized possessions. Then he wonders why he ever resisted efforts made to sell it to him. He never will come to a satisfactory conclusion on that point, but he will be not only tolerant of but sympathetic with life insurance agents. And it is because so many Pittsburghers have been educated to the value of the protection which life insurance affords that the National Association of Life Underwriters' convention, some 1,500 strong, is cordially welcomed to Pittsburgh this week.

While selling life insurance is a business primarily for private profit, there is an altruistic side to it which makes its strongest appeal. Therefore the salesman who presents an underwriting proposition should be received as a friend, stranger though he be. He knows what is good for you, if you do not. If you listen to him he will convince you that you should buy a policy, though he may be unable to prove to you to your satisfaction that you can pay for one. But once you are convinced you will find the means. And when you have become a policy-holder you will become conscious of a highly important truth. You will sense a new duty of citizenship. You will realize, as perhaps you have not realized it before, that independence in this country really is a very well-defined intangible, and that to a considerable degree life insurance forms a bond between the individuals who make up society. For the money which you pay

for this protection is in the aggregate a goodly protection of the capital whose employment in general industry makes the country great and prosperous. Tear down the existing order and you jeopardize the assurance you have sought to give your wife and children that they will be spared what if you are suddenly bereft of them.
Life insurance is a blessing in that it protects those who go in for it, and practically none are barred from participating in its benefits. The protection which it affords individuals is best assured by the upholding of law and order and the preservation of American institutions of justice.

BELGIUM AND HOLLAND.

(Baltimore Sun.)
Belgium since that fateful day in the summer of 1914, when she decided to save her soul at the expense of her body, has become the synonym for all the heroic national virtues—for a right, a proud, a self-respecting, a self-interested, for a courage which no terror could shake or an endurance which no prolonged torture could break down. The nation bravely German oppression could not weaken her "unconquerable soul." She might have made a coward peace with Prussia; she might have hidden behind a formal protest and saved herself from four years of indescribable woe. But she scorned to make so base a bargain. She held her immortal spirit—the thing which distinguishes a great nation from a race of human vines—as the holiest and most precious part of her heritage.

Next door to her was the wealthy little country we call Holland. The latter may have been justified in maintaining her position of cold neutrality during the war, but she thereby lost the crown of glory.

Between these two the associated powers are now called upon to decide. Belgium demands a restoration of the treaty of 1839, under which Holland annexed the southern bank of the Scheldt and a strip of Dutch Limburg lying between Belgium and Germany. Belgium bases her demands upon the necessity of securing a stronger military frontier and freeing the trade of Antwerp, her great port, from the restrictions now placed upon it by Dutch possession of the lower portion of the Scheldt, and asks for political control of the southern bank of the river, and certain guarantees deemed necessary to safeguard Belgium's economic interests in South Limburg.

In return for these concessions the Belgians suggested that Holland receive compensation in the form of certain bits of German territory inhabited by a Dutch speaking population.
There will be almost universal sympathy, we believe, with the Belgian demands, and there will be very little sympathy for Holland. Whether the Belgian demands are granted in full or not, the part which Belgium has played in the war entitles her to be put in a position by Holland and to protect herself against future aggression.

Spirit of the Press

Wise as Well as Brave.
General Pershing's motive in postponing indefinitely a western trip can only be surmised. It is obvious, however, that a triumphant journey such as he would have at this time might develop into a kind of rivalry with President Wilson's tour and would surely be interpreted by many politicians as a try-out of the general's popularity with a view of a presidential nomination next year. The general's prompt decision to stay in Washington, close up his work as commander-in-chief of the American expeditionary forces and answer the questions of congressional investigating committees, will win approval because of its wisdom.—Springfield Republican.

Loyal Officers and Citizens.

While the situation in Boston is such as to cause genuine anxiety, there is one feature of it that is distinctly encouraging. This is the announcement, made on the authority of Mayor Peters, that more than 600 policemen, out of a total force of 1,638, have remained at their posts, loyal to the city and to their obligations. This record means that at least one out of three of the members of the Boston police force have not been swept off their feet by the specious arguments of the organizers of the American Federation of Labor; that they realize the evil tendencies of the attempt that is being made to undermine the allegiance of policemen to the authority of the state; and that they cannot be driven by outside influences into leaving the city at the mercy of the mob.—Rochester Democrat and Chronicle.

THROW EGGS AT SENATOR REED

Missouri Solon Attacks Treaty and Crowd Attacks Him—Meeting Is Broken Up By Cheers For Wilson.

Ardmore, Okla., Oct. 2.—Whether an official investigation would be made of a demonstration here last night, which resulted in the throwing of eggs at United States Senator James A. Reed, of Missouri, who was on the platform at Convention hall to deliver an address in opposition to the peace treaty and the League of Nations, was the subject of considerable discussion today. Although several officials declared that an investigation should be made and those guilty of participating, they pointed out that as the egg throwing took place after light wires had been cut and the building was in darkness, it would be virtually impossible to identify the persons who took part. Senator Reed left Ardmore late last night for the west without commenting on the demonstration and the belief prevailed that the incident was closed. The demonstration followed a mass meeting Tuesday at which a resolution was adopted censuring the senator for his opposition to the League of Nations covenant and urging that he cancel his speaking engagement. Last night's trouble began almost as soon as Mayor Freeman had risen to introduce the senator. Mayor Freeman was in the midst of an explanation that he was introducing the speaker because he was the mayor of the city and not because he supported the views of those opposed to the league covenant when the lights went out and volleys of eggs hurled through the air toward the stage.

When the lights were restored it was found that virtually none of those on the stage, including the senator, mayor and members of the reception committee had escaped the effects of the eggs. Later officials attempted to continue the program, but the crowd refused to listen. Efforts by Senator Reed to deliver his address were met with jeers, hisses, cat calls and cheers for President Wilson.

Women members of the audience went upon the stage and held an informal reception in the hope that the more would quiet the crowd. Finally the meeting was abandoned and Senator Reed was driven to his hotel.

SOCIAL AFFAIRS

Peterman-Coon. Miss Mary Julia Coon and Mr. Willard Rank Peterman, both of this city, were united in marriage Wednesday at 3 p. m. at the First M. E. church parsonage, Dr. L. C. Sparks officiating. They will reside in Newark.

Mr. and Mrs. Fred Squigens of East Main street announce the engagement of their daughter Esther Belle Squigens to William A. Lewis of Detroit, Mich.

When Miss Louise Reichert entertained the members of the G. A. B. club at her home in South Sixth street, announcement was made of her engagement to Mr. Jack Evans, the wedding to take place in October, but no date was announced. The announcement was made at the luncheon table, which was centered with a tall basket filled with white chrysanthemums. From the basket were extended narrow white ribbons to individual bon-bon baskets in white and green. When the ribbons were withdrawn a tiny keyhole was found to which were attached the names of Miss Reichert and Mr. Evans. The place cards were also in white and green. The guests of the club were Misses Winifred Evans, Freda Reichert, Madeline Reichert and Clara Reichert. Miss Reichert is the daughter of Mr. and Mrs. Joseph Reichert of South Sixth street, while Mr. Evans is the son of Mr. and Mrs. W. D. Evans of West Locust street.

The Woman's Auxiliary to the Board of Missions of the Episcopal church held the first social meeting at the home of the president, Mrs. Abbie Metz, on Wednesday afternoon.

The report of the united offering was made and the mission campaign was discussed. A musical program was given by Miss Mabel Metz, and refreshments were served.

The Daughters of Trinity will meet on Friday afternoon at 2:30 o'clock at the Trinity Parish house.

The members of the Woman's Home and Foreign Missionary Society of the Second Presbyterian church will be entertained at the home of Mrs. Jessie A. Flory in 210 West Church street on Friday afternoon at 2:30 o'clock.

Mrs. H. P. Scott will entertain the members of the Trinity Sewing club on Friday afternoon at the Sherwood Hotel.

WIFE HID BEHIND DOOR WITH CLUB

Charles Frame Says She Used It On His Head Causing Severe Injury—Asks Court For Divorce.

Charging that his wife concealed herself behind a door in his home and that when he attempted to enter hit him over the head with a heavy club or rolling pin, knocking him down and rendering him partially unconscious, Charles Frame has filed a petition in common pleas court against Estella Frame asking for a divorce.

The parties were married June 15, 1904, and are the parents of two children, aged 14 and 13. He alleges in his petition that she struck him in May, 1913, that he was severely injured and that she declared that she intended to kill him.

The petition recites that on September 20 last she abandoned her home, taking along with her their two children and going to Gilmore, O. He also states that she frequently left home and remained away night after night and that when he would ask her where she had been she would reply that it was none of his business and that she called him a — big mule and that she would work him every day and spend his money.

Frame asks for the divorce and custody of the children.

Mrs. Love Gets Decree. In common pleas court in the case of Florence Love vs. Edward Love, a decree of divorce was allowed plaintiff. The custody of the children was given to the plaintiff, and the defendant, Edward Love, was ordered to pay for the support of the children, \$6, per week.

Charges Abandonment. Dollie Clark has filed a petition for divorce in probate court against Fred Clark. They were married December 5, 1900, and are the parents of three

children, aged 18, 15 and 10 years. The petition alleges that on May 1, 1910, the defendant abandoned her and their children, without just cause and has remained willfully absent from them and has refused to provide any of the necessities of life although able to do so.

Marriage Licenses. James Oliver Hunter, a farmer and Miss Stella May Orndorff, both of Croton. Willard Rank Peterman, a truck driver and Miss Mary Julia Coon, both of this city. Rev. L. C. Sparks to officiate. Abraham N. Ritchey, confectionery merchant and Miss Nazarah Ritchey, clerk both of Ulica. Rev. B. M. O'Boylan named to officiate.

Inspect County Bridge. The county commissioners are in Eden township today inspecting three bridges which are badly in need of repair. The officials will find out what is needed and have them attended to at once. The commissioners yesterday granted the petition to close the Shaw road from the Wilkins pike to the J. W. Shaw barnyard and set Wednesday, Oct. 8, as the date of hearing any claims as a result of such action.

Charges Gross Neglect. Emma C. Belk has filed a petition in common pleas court against William J. Belk, which states that they were married Aug. 8, 1914, at Covington, Ky. She alleges that he has been guilty of willful absence for more than three years and that Belk has been guilty of gross neglect and failure to provide for her and their children. She asks that she be granted a divorce and restored to her maiden name of Emma C. Cedelete.

MAN BURNS TO DEATH. Toledo, Oct. 2.—Benjamin F. Wallace, a foreman in the Toledo Furnace company plant, was killed here last night when a blast of fire from a furnace set his clothing on fire. He leaves a widow and family.

RAID WHISKY STILL. Youngstown, Sept. 2.—A second whiskey still was raided here today by police, who arrested four men and a woman in a foreign district. A still for making raisin and prune brandy was confiscated. The first raid was made last night when liquor making apparatus was seized in the same district.

HEATH PLANT AS CHRISTMAS GIFT

Construction Superintendent Says It Will Be Turned Over To Ohio Cities Co. In December.

R. E. Young, construction superintendent for the Ohio Cities Gas company stated that he expected to give the completed big refinery at Heath, to the company for a Christmas present. Work is being rushed and that 125 foot stack is completed and the 110 foot stack will be finished today. In about 10 days a 175 foot stack will be completed. Everything is ready for the big stills, the foundations and steel rims being in. The excavation is done for the oil trap and the reservoir.

GRAYSON CALLS NERVE SPECIALIST FOR WILSON

Washington, Oct. 2.—Despite a fairly good night's rest, President Wilson was not so well this morning, and Rear Admiral Grayson, his personal physician, has called in consultation Dr. F. X. Dercum, a neurologist of Philadelphia.

Rear Admiral Grayson issued the following bulletin at 11 a. m.:

"The President had a fairly good night, but his condition is not at all good this morning."

The calling in of the nerve specialist was decided upon by Dr. Grayson yesterday and Dr. Dercum is expected at the White House today.

The President's condition is not considered alarming, it was explained at the White House, but the decision to call in Dr. Dercum was made as a precautionary measure and to relieve the pressure on Dr. Grayson who has been with the President almost continually since he was taken ill a week ago while on a speaking tour.

The President was described as extremely restless. Dr. Grayson insists that he remained quiet and is trying to direct his mind from work and executive matters in which Mr. Wilson is desirous of taking a hand. The chief executive, however, has been permitted to sign a few bills and attend to some few other routine matters.

Dr. Grayson has been in consultation with Rear Admiral E. R. Sitt, head of the naval medical school, and Dr. Dennis, of the naval dispensary, but they had not seen the President.

Dr. Grayson expects Dr. George DeSewitz, an eye specialist of Philadelphia, to visit the President this week. The President did not take kindly to the idea of calling in a specialist, but finally acquiesced on Dr. Grayson's insistence that he would have to have some assistance.

HOPE PARLEY WILL RESUME IN LONDON

London, Oct. 2.—Hope that some means might be found for reaching an understanding with the government relative to the railroad strike was expressed in a statement issued this morning by J. H. Thomson, secretary of the national union of railwaymen before going to the conference with Premier Lloyd George and members of the ministry.

"The position is such, I hope," the statement said, "that negotiations will be resumed."

FORMER RECORDER DIES

New Lexington, Oct. 2.—L. E. Butt, aged 73, former recorder of Perry county, died at his home here at 12:30 o'clock Tuesday afternoon, after a lingering illness. Mr. Butt was confined to his bed since April. His term as county recorder expired Sept. 1. He was absent from the office in 1914, as a Republican candidate and was unopposed for re-election two years ago. He also served three terms as city treasurer.

CANDIDATE IS SIED

Youngstown, Oct. 2.—Fred W. Banks, president of the city civil service commission and candidate for mayor at the next primaries, was injured in a suit today in municipal court asking judgment for \$286.87, alleged to have been received by Banks illegally as salary while secretary of the civil service board.

AMATEURS MAKE LIQUORS

Toledo, Oct. 2.—What they declare was an amateur liquor making outfit was seized here last night in a raid by federal agents. They found a lard can for boiling mash and other apparatus and took several gallons of raw spirits colored with burned sugar. J. D. Tracy and Joe Kierec were arrested. This is the second alleged still found in Toledo in the last few days.

FACULTY ASKS INCREASE

Columbus, Oct. 2.—Fifty percent increase in salaries of professors of Ohio State University will be asked of the state legislature when it reconvenes in December. The request will be carried to the lawmakers by a committee representing teachers' league of the university, it was stated today.

RAT ATTACKS BABY

Columbus, Oct. 2.—The three weeks' old baby of C. L. Coss is in a critical condition as a result of being attacked by a white pet rat while the mother was nursing him. The child's face was badly lacerated by the rodent and attending physicians said it would be badly disfigured for life, if it does not succumb to the injuries.

CROWN PRINCESS MUST MOVE

The reduction of the extensive court circle which formerly surrounded the princess has already been accomplished.

Paris: City faces loss of fruit crop.

THE MARKETS

Wall Street.

New York, Oct. 2.—Steels led at the strong opening of today's stock market, gains in that group extending from large fractions to 1 point. Crucible again was the uncertain feature, now ever reacting 4 points immediately after its slight advance. Tobacco leather, paper, woolen sugar and railway shares contributed to the early strength, at gains of 1 to 2 1/2 points, but equipments, shippings and rubber issues were irregular. Steels cancelled their gains before the end of the first half hour when Crucible extended its loss to almost 10 points.

The entire list seemed to be influenced by the erratic course of Crucible Steel, which declined 11 points, soon making up most of its loss, only to fall again. Reactions elsewhere ranged from 1 to 3 points, equipments, motors and oils being most affected. Seven tobacco which were strongest as a group moved contrarily at times, American Woolen and the popular rubber tire specialties led the rally of the second hour.

Atlantic Gulf and Marine common, also Texas and Pacific among the rails at gains of 2 to 6 points. Steels shaded again at noon but equipments strengthened. Call money opened at 6 percent.

Chicago Grain Review.

Chicago, Oct. 2.—Corn eased down in price today as a result of better weather condition and bearish crop reports. Opening prices, which ranged from 13 1/2 to 13 3/4 lower with December \$1.35 1/2 to 1 1/2 3/4, and May \$1.23 1/2 to 1 1/2 3/4, were followed by a moderate further setback.

Oats declined with corn but rallied on word that seaboard bids had been advanced after opening. Oats changed to 2 1/2 lower, including December at 70 1/2 to 70 3/4 the market sagged a little more as a denier rose to above yesterday's finish.

Liberal shipments of hams and lard made the provision market firm. Weakness in the hog market had only a temporary bearish influence.

AT 131 HE RIDES IN OVERLAND 4

John Shell of Lexington, Ky., 131 years old, said to be the oldest man in the world, was one of the features at the Kentucky State Fair at Louisville this month. His daughter, 97 years old, watched him with almost motherly care. He had a ride in an aeroplane, and liked it at an altitude of 600 feet. After that, he had a ride in an Overland 4, the new light-weight car which the Willys-Overland Co., is putting on the market this season.

"I have ridden in a lot of automobiles," this man who has lived in three centuries said, after his ride in Overland 4, "but I do not think I have ever been in an easier riding car." The picture shows Mr. Shell at the wheel of an Overland 4. F. M. Rugg, manager of the Overland Garage, 62 W. Main street is sending out a cordial invitation to see the new Overland 4, now on display at the show room.

WHERE BELGIAN ROYALTY ARE TO LIVE DURING VISIT TO U. S. AND THEIR HOSTS

The photographs show the Belgian embassy in Washington and Baron E. de Cartier de Marchienne, Belgian ambassador to U. S. and his bride. Baron E. de Cartier de Marchienne, Belgian ambassador to the United States and his bride, formerly Mrs. Hamilton Wilkes Cary of New York, will have charge of the arrangements for entertaining Belgium's king and queen in Washington. The king, queen and crown prince will make the Belgian embassy in Washington, D. C., their headquarters and it will be the scene of many royal functions during their stay.

ESTO.

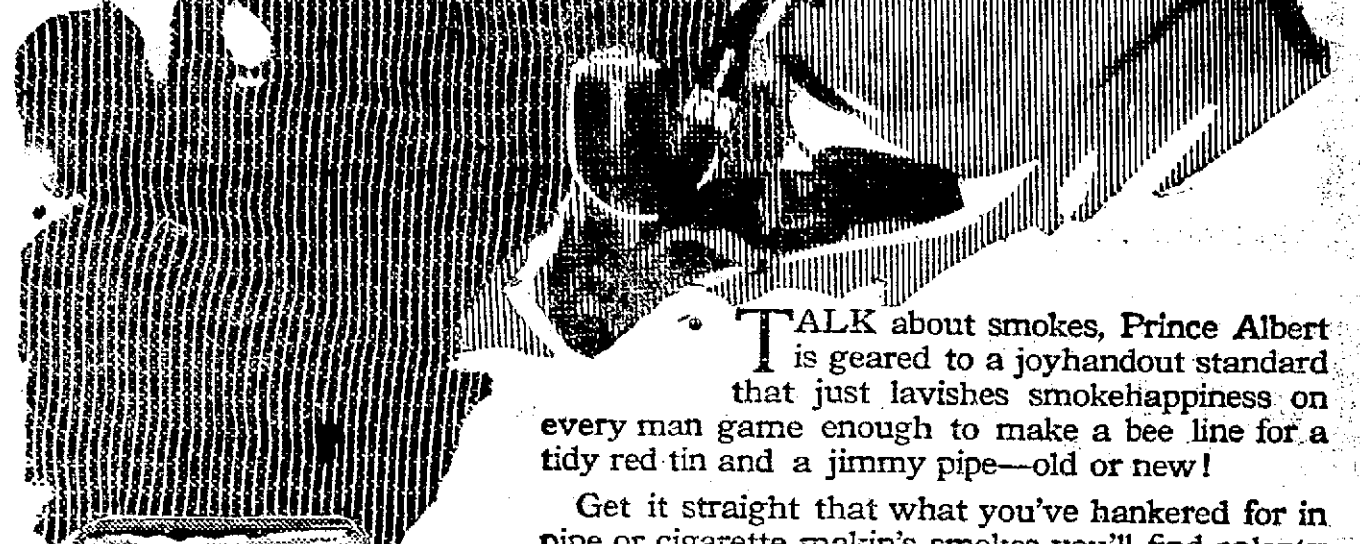

Rev. McDonald did not fill his appointment at Messiah Sunday, as his wife is in a very serious condition, following an operation. Mrs. Josephine McMillan and Mrs. Ida Conkle of Flat Run visited Mrs. Elizabeth Flack and daughter last Friday. Mr. and Mrs. Wm. Hildebrand, Mr. and Mrs. John McLarnan and son George were after church guests of Mr. and Mrs. E. S. Farmer near Pipeville Sunday. Mr. and Mrs. A. L. Totten and daughter

Ermine and Irene visited at the home of Mrs. L. S. Walcott of Hunt Station Sunday. Mrs. Josie Morningstar entertained a few of her neighbors Friday. Those present were: Mrs. Elizabeth Flack and sister Miss Nancy Lepley, Mrs. Wm. Hildebrand, Mrs. Henry Howe, Mrs. Charlie Meick and granddaughter Rachel, Mrs. Loh McLarnan, Mrs. A. L. Totten, Mrs. George Hoyman and sister and the Hostess Mrs. Josie Morningstar at 12 o'clock a dinner was served.

PRINCE ALBERT

The original for centuries

TALK about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin's smokes you'll find aplenty in P. A. That's because P. A. has the quality!

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why in samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Tappy red bags, tidy red tins, handsome pound and half pound tin humidors—and that clever, practical pound crystal glass humidor with sponge-moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

Remember This.

One advertisement will not do the work, neither will two advertisements. It takes continuous advertising to bring home the bacon. That is the reason our large institutions are larger. They were small businesses a few years ago, but through continuous advertising they have grown to large institutions. Think this over.

THE GENERAL JUMBO TIRES

PLEASURE CARS AND BUSINESS CARS, SUCH AS FORDS, CHEVROLETS AND MAXWELLS, WHICH REGULARLY HAVE 30x3 1/2 TIRES, ARE BETTER CARS WHEN THEY RUN ON JUMBO TIRES. THE JUMBO, BECAUSE OF ITS GREAT OVERSIZE, RIDES OVER TRACKS AND RUTS—NOT IN THEM. THERE IS NO WRENCH OR STRAIN. WITH ITS LARGER AIR CHAMBER THE JUMBO CUSHIONS THE WAY ON ROUGH ROADS OR COBBLESTONES. THE CAR AND ITS LOAD RIDE EASY ON THE JUMBO TIRE, WHICH SAVES THE TIRE ITSELF FROM THE JARRING AND POUNDING THAT A CAR ORDINARILY THROWS BACK ON SMALL TIRES AT EVERY BUMP. THIS SHOCK-ABSORBING TIRE MAKES COMFORT FOR PASSENGERS AND PROTECTS THE MECHANISM OF THE CAR—AND ABOVE ALL, UNINTERRUPTED AND BETTER—LONGER—TIRE SERVICE. 10,000 MILES GUARANTEED. THE JUMBO COSTS BUT LITTLE MORE THAN THE ORDINARY 30x3 1/2 TIRE.

NEED LEADERS FOR 2500 POTENTIAL BOY SCOUTS IN NEWARK ALONE

Newark has about 2,500 boys of scout age. About five percent are now receiving the benefits of Boy Scout work. In order that more of these boys may enlist and receive this training, the Newark council will conduct a training course for scout leaders. This course is to be entirely free to men enlisted for service to the community through work with boys.

The Boy Scouts of America is the greatest organization of boys in the world, with a membership of over half a million scouts and leaders.

The boys are here, the need is for scout leaders. Men are wanted who desire to invest their spare time in a kind of recreation which will develop their own power.

The work is not exacting, it merely requires that you like boys, and are willing to work with them, and for them, a few hours a week.

You do not have to be an expert in Scoutcraft. You do not even have to map out a program of activities. This will all be furnished you in the Scoutmasters handbook, and through Boy Scout headquarters.

Scouting is the process of making real men out of real boys, by a real program which works. The end and aim of scouting is good citizenship, to

make men, "physically strong, mentally awake, morally straight."

Decide today that you will invest your time and personality which is the greatest service of the world.

Fill out the application and give it to a Boy Scout or mail it to headquarters. This application makes you a member of the Scout Leaders' reserve corps.

Help to develop the Newark Scout movement into the best organization in America, for peace work, as Licking county leads the world in war work.

I wish to enroll for service to my country as a Boy Scout Leader. Whatever capacity I can be best utilized in the conservation of boyhood, and its use in National Service and Citizenship Training. I approve of the ideals upon which the organization is based and pledge myself to lead boys entrusted in my care in living up to those ideals.

UNCLE SAM TO SHOW OFF HISTORIC PLANE

The NC-4, the U. S. Navy flying boat which made the first flight across the Atlantic, is now on a flying cruise which will include stops at most of the important Atlantic, Gulf and Mississippi ports.

The expedition will be in charge of Lieut. Commander A. C. Reed who commanded the ship on her trans-Atlantic voyage.

Although the trip has been ordered by the secretary of the navy with the primary object of giving as many people as possible a chance of seeing the historic craft, it is the intention of the navy to take this means of making before young men the advantages which naval aviation offers to those anxious to get in on the ground floor of a new and rapidly developing science. H. Wilkins, 8 West Main street, Newark, in charge of the local recruiting office, is co-operating with the expedition. A number have already enlisted and have been sent to various air stations. It is expected that the naval aviation quota will be filled by the time the NC-4 completes her trip.

The plane will be accompanied by the U. S. S. Isabel, a converted yacht. The Isabel will carry the recruiting party, mechanics, moving pictures of the trans-Atlantic flight and other films of interest, in addition to a band which will entertain the crowds where the sea-plane docks. The Isabel will also serve as mother ship to the giant plane. She will carry a crew of men to keep the boat in flying trim and will be the plane's refueling base.

The plane will fly unaccompanied to Atlantic City, arriving there at 11 a. m. and returning to Rockaway the following afternoon.

Today the plane is at Boston. It will visit Providence, Oct. 1; New Haven, Oct. 3; Philadelphia, Oct. 6; Baltimore, Oct. 11; Washington, Oct. 15; Norfolk, Oct. 19; Charleston, Oct. 23; Jacksonville, Oct. 27; Miami, Oct. 30; Pensacola, Nov. 3; New Orleans, Nov. 4. The Gulf and Mississippi schedule will be arranged after the party reaches New Orleans.

Elaborate entertainment plans are being made all along the coast for a welcome to Commander Reed and the other trans-Atlantic flyers, several of who will make the trip.

CLEAN UP POISON SOAKED KIDNEYS ADVISES DR. CAREY

Thousands Die Every Year Because They Allow Poisonous Deposits to Accumulate in Kidneys.

Don't flush your kidneys with harsh makeshifts says Dr. Carey, they are too frail and delicately constructed to treat them rough.

For 40 years I have been prescribing Marshmallow for kidney and bladder disease and now I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price.

Beware of kidney disease thousands die of it every year who ought to be enjoying the blessings of life and health.

If you have specks floating before the eyes, puffs under eyes, clammy feet, moist palms, headache or sideache you ought to get a bottle of Dr. Carey's Marshmallow right away.

It has conquered thousands of kidney and bladder diseases and the medicine always depend upon.

IMPORTANT—Dr. Daniel C. Carey has been a practicing physician for many years and his great prescription, "Marshmallow," has cured thousands of sufferers from kidney and bladder troubles. It is not a patent medicine and is only sold through drug stores in order to accommodate his patients. T. J. Evans' Cut Rate Drug Store can supply you. —Adv.

First Parcel. Being seven feet off the south side of lot number fifteen hundred and thirty-eight (1938) and being thirty-seven (37) feet off the north side of lot number nineteen hundred and forty-one (1941) in George W. Penny's Addition to said City of Newark, Ohio, according to a plat thereof recorded in Vol. 2 page 229 of the Records of Plats of the Recorder's Office of said county.

Second Parcel. Being situated in the County of Licking, State of Ohio and in the City of Newark, and being a lot of lot number twenty-seven hundred and ninety-eight (2798) as the same is described and designated on the Plat of Charles G. Penny's Addition to said city which part of said subdivision is recorded in Vol. 2 Plats 454, reference to which is made.

That said plaintiffs, and said defendant are each entitled to an undivided one fourth interest in said lands and plaintiffs desire to have their interest set off to them in severalty, or if that cannot be done without manifest injury that such proceedings be had as are authorized by law.

Said parties are required to answer on or before the 1st day of November, 1919.

CHARGE EDITOR KILLED JURIST

Richmond, Mo., Newspaper
Man Goes Into Court To
Fight Charge That He
Stabbed Judge To Death.

Richmond, Oct. 1.—Of wide-spread interest throughout not only Missouri but the Middle-West is the trial of Robert S. Lyon, editor of the Richmond Conservator, on a charge of first degree murder in the stabbing to death of Judge Frank P. Divilbiss of the Seventh judicial district in the court house here, April 7. The trial is set for the October term of the Ray county circuit court, beginning today.

Lyon was arraigned in circuit court here May 14, a coroner's jury returning the verdict that Judge Divilbiss "came to his death from knife wounds inflicted by Robert S. Lyon." Following this announcement, Lyon was charged with murder in the first degree and his bond was placed at \$15,000. Lyon is now out on bond, 42 prominent business men and farmers from all sections of the county signing his bond.

The stabbing of Judge Divilbiss occurred in a corridor of the Ray county court house. There were no eye witnesses. Judge Divilbiss was standing in the office of C. E. Moyer, circuit clerk, the morning of the tragedy. When Lyon entered the judge's office, the room and proceeded toward the office of Sheriff C. W. Higdon, intending to remain there, according to a statement made by Judge Divilbiss, until Lyon, it is asserted, his business. In a dimly lighted hall, Lyon, it is asserted, stabbed Judge Divilbiss. Lyon threw the knife around the judge's neck and began wielding a knife.

The judge was stabbed nine times, eight cuts being in the abdomen and one in the lower chest near the heart. He was taken to his home, where he died of the wounds received. The sheriff, it is asserted, followed the stabbing.

The trial promises to revolve about four bits of evidence said to have been preserved by the prosecutor and the defense. These are the pocket knife with which Judge Divilbiss was stabbed, the judge's dying statement, a broken umbrella belonging to Lyon and the editor's coat, said to have three knife cuts in it. The knife and the dying statement are in the possession of the prosecutor, D. A. Thompson. Ownership of the knife has not been established. Lyon, it is asserted, said to have made, asserted the knife is from the judge's pocket during the scuffle in the hall and that he picked it up and used it in self defense. A small towel, said to have been a political campaign resulting in the breaking of former friendships are said to be back of the incident. In the two campaigns for the circuit judgeship Lyon supported Judge Divilbiss, but in the Democratic congressional primary of 1918 Lyon took the side of Representative J. W. Alexander, who was opposed to Judge Divilbiss. During the campaign, Lyon said the judge made a speech attacking him, perjury, and that "it might have been considered sufficient provocation to shoot a man." The news a staunch supporter of the circuit and several smarting editorial attacks on Lyon, for which the editor of the Conservator is said to have held Judge Divilbiss responsible.

Judge Divilbiss attracted wide attention during his career of 15 years as a lawyer, probate judge, circuit judge and candidate for congress. His career on the bench caused terror to tax dodgers and liquor law violators.

When railroad dining cars were alleged to be selling liquor in dry counties in the Seventh district, Judge Divilbiss took the matter before the grand jury and declared the companies were bootleggers. He held that the "railroads have no more right to sell liquor in their dining cars than a bootlegger in the brush at a county picnic." He stopped it.

In 1914 Judge Divilbiss took up the campaign against tax dodgers. When the first grand jury went into session over this matter, his friends told him he wouldn't have a supporter left if he persisted.

"I didn't know perjury was as common as that," he replied. That grand jury, after deliberation without action, was discharged and an accountant set to work. Later a grand jury indicted 15 prominent citizens including two of the first jury. Afterward 50 citizens of Ray, Carroll and Clay counties were convicted for tax dodging, and in cases of conviction were fined \$200 each and made to correct their tax returns. As a result of the campaign, more than five million dollars was added to the assessment lists of Carroll, Clay and Ray counties.

Judge Divilbiss was born in Ray county in 1870. He was a graduate of the University of Missouri. After practicing law 15 years, he joined the Methodist church at a young age. Two years later he resigned as probate judge and entered the Methodist ministry, but returned to the practice of law after only six months in the ministry. In 1906 he was elected a probate judge of Ray county and served two terms. He was elected circuit judge in 1912 and re-elected in 1916.

LADY SUFFERED FOR TWO YEARS

Stomach Trouble Never Let me on Her
For One Single Day Till She
Found Drego, the New Her-
bal Remedy.

"For two long years I have been a patient sufferer from stomach trouble, constipation and a few other things," declares Mrs. L. A. Thompson, the well known and highly respected lady who resides at 446 North Tenth street, Newark, Ohio. In a signed statement for publication.

"I have spent many a dollar for medicine and doctor's bills, seeking relief from gastritis, dyspepsia, indigestion and constipation. My stomach often became so swollen from the gas that it felt like a rope tied round my body. No matter how careful I was about my food it was the same, always that sourness, belching, choked up feeling. My nerves became all unstrung, and I never knew a good night's rest. Heavy dragging pains in my back, over my kidneys, became almost unbearable. My liver was sluggish, tongue coated; spots danced before my eyes; my limbs ached and my general health was about broken. I am not like that now. I am 52 years old and had given up hope of ever being strong and well again, but I am here today, praising Drego for the grand, wonderful relief it has given me. I am not like the same sickly, puny woman I was before, but feel good all over. Lovels act regularly; my food digests well with no more gas or sour belching. The pains are gone from my back and limbs, and, ray, I am active again. Say anything you want to in the papers about Drego, for you will not be able to fully express my gratitude to this great remedy."

All good druggists now sell Drego and it is highly recommended in Newark by Evans' Out-Rate drug store.—Adv.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief for
Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development of secretion.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisurated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antacid, such as bisurated magnesia which can be obtained from any druggist, in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestants. Magnesia comes in several forms, so be certain to ask for and take only Bisurated Magnesia, which is especially prepared for the above purpose.

more were expected today. A statement issued by the company said that all departments of all the plants in this and other cities are working at practically full capacity.

Strike leaders, however, make directly opposite claims.

GRADUAL RETURN TO WORK IS CONTINUING

Chicago, Oct. 2.—Developments of the strike of steel mill employees in the Chicago district today were regarded by the company officials as pointing to a continuance of the gradual return to work noted in many of the plants yesterday. It was stated authoritatively that operation with 50 per cent of its force of 7,000 workmen would begin today by the Mark Manufacturing company at Indiana Harbor. All of the employees at that mill walked out when the strike was called 11 days ago.

From Gary and South Chicago came reports of increasing numbers of employees returning to work with the resultant enlarged production. Similar reports came from Waukegan.

Labor leaders maintained, however, their denial of claims made by the company heads.

BETHLEHEM OFFICIALS SAY WHOLE PLANT RUNS

Harrisburg, Pa., Oct. 2.—Officials of the Bethlehem Steel company today stated that more men had reported for work and that every department was in operation in the Steelton plant, including the bridge workers and the coke ovens which the strike committee had claimed were crippled. The company officials declared that by the end of the week the operations would be nearly normal.

MERGER PROGRESSING.

The merger of the two telephone companies of Newark is progressing as rapidly as it can legally and mechanically.

Of the 6000 automatic subscribers and the 1100 Bell subscribers, 300 will be able to do away with one of their duplicates, thus reducing their annual expenses for telephone service.

The 5800 other automatic telephone users will have their possible service increased nearly 14 per cent without any additional cost to them.

The 800 other Bell subscribers will have their possible service increased 725 per cent at a very slight increase over their present cost.

The whole city will be benefited by having a unified efficient service for all.

As long as investors are assured of an adequate return on their investment, the company will never be unable to carry this unified and efficient service to every home and factory in the districts in which it operates.

ACTRESS A GUEST AT KI-ROTE MEET

Joint Dinner of Kiwanians and Rotarians Is Attended By Edna Goodrich—Novel Entertainment is Provided.

The entertainment provided was varied. George Fenberg of the Rotarians bringing as his "surprise party?" Edna Goodrich, the actress who appeared at the Auditorium last night in "Sleeping Partners." She gave a solo talk and Rosalynne D'Yarnett did aesthetic dancing.

W. W. Gard of the Kiwanis club welcomed the Rotarians and the response was made by C. H. Spencer. Earl Wyeth gave a pleasing xylophone solo and Rev. G. Bohon Schmidt, told of his trip to Birmingham, Ala., where he attended the national Kiwanis convention.

Prof. Sousa Shierusa, in private life Dr. J. G. Shirer, provided lots of fun and some good music with his band. Prof. C. L. Williams of Granville gave a talk on "Co-operation."

A menu of four courses was served.

CANDIDATES WORKING HARD FOR H. S. JOBS

Newark high's team will have a chance to prove its worth Saturday when it plays high school of Commerce of Columbus. The team is practicing hard this week preparatory to the coming game.

The fourth position in the backfield is being fought for by Montgomery, Jones, Davis, Woodbridge and Quinn. Kelly is a sure center and Tver will probably be at right tackle. The contestants for right end are Stoffer, Johnson, Davis and Tellifrow.

The game Saturday promises to be interesting as Commerce high held East high to a low score last Saturday and East high is said to have one of the best teams in its history.

NEWARK STORE HAS PROFIT-SHARING PLAN

The People's Clothing company, 7 South Third street, has just received notice from the New York office that all employees who have been in their employ for six months or longer, will participate in a profit sharing plan that this company has adopted. The plan will apply to all their stores throughout the United States, and to all employees, whatever position they may fill. This is the first concern, operating a chain of clothing stores, that has adopted this policy.

PINS ON CITY MAP SHOW TEAM'S RECORD

A novel form of record to assist in the membership campaign now on at the Y. M. C. A. hangs in the main lobby of the association. It is a large map of the city of Newark. As the members join the Y a colored pin will be stuck in the map indicating not only where the new member lives but by the color one can tell what team brought him in. A daily record will be kept of each team's work and at the end of the month when the campaign winds up the team ahead will have the privilege of sitting in a box seat at the Auditorium and look down on the rest of the teams.

Captain Howard of the Doughboys' team is setting the pace for the lead. His team is represented by the white pins. Ike Emmons is captain of the Aviators and his squad has for its color red. George Wiley captains the Gunners. Blue is their color. Ed Bonham leads the Marines, they will use the green pins to mark up their members.

"General" Homer Batoh will be at the Y. M. C. A. every night to hear the reports from the team captains.

NEW YORK Y WORKER TO SPEAK HERE SOON

To better acquaint the members of the Y. M. C. A. industrial committee with the work done by the Y. M. C. A. in shops and factories in other towns, Mr. Griener, local industrial secretary expects to have N. C. Schlichter of the industrial department of the Young Men's Christian association international committee of New York visit Newark some time during the latter part of this month.

Last Night's Show.
Edna Goodrich, well known theatrical star and one of the most beautiful women on the American stage, was seen here last night at the Auditorium theatre in a three-act comedy adapted from the French, "Sleeping Partners."

Miss Goodrich was charming and her Parisian accent was delightful. She wore several magnificent gowns, and the audience although not as large as it should have been was most appreciative. There were three others in the cast and the character of "He" assigned to Harry Hollingsworth, was in most capable hands and was most excellently portrayed by that gentleman.

Whatever the Dress A Particular Occasion May Demand

It will no doubt be ably met in our extensive display of new Fall models, which feature STREET DRESSES in fine tricotines—serges—tricolette—beautifully tailored—and many showing trimmings of jet—braided designs—or heavily embroidered patterns in colors.

AFTERNOON DRESSES in satins—fine crepes—taffetas—made up in handsome styles—many of them combined with Georgette crepes—some beautifully beaded—others embroidered in fancy colors. The colors are unusually pretty—shades of brown—taupe—navy—green and black.

PARTY DRESSES are unusually dainty this season. Attractive models for dancing and evening wear in all the delicate shades, of maize—milk—light blue—rose—pink—as well as handsome models in black.

Pay Your New Suit the Compliment Of a Handsome Waist

Navy—brown and taupe—popular suit shades are here, as well as the ever popular white—flesh and other shades, in fine Georgettes. Fine tucks—satin bands—beaded or embroidered designs are noticeable on the new models. Also beautiful models in Pussy Willow satin—in white and fancy stripes.

A Short Plush Coat

Will be very stylish for this winter. Styles are unusually attractive—many with backs that can be belted in or worn loose. These are shown—many in black—some with black fur collars—others trimmings of fancy fur, such as Krimmer or Beaverette. In the colored fabrics are pretty models in Beaverette and Leopard Cloth.

When Twenty-five Millions Buy "Cascarets" They
Must be "Just Right" for Liver and Bowels

Twenty-five million boxes of Cascarets were sold last year to folks who wanted relief from Constipation, Bilelessness, Indigestion, Gases, Colds and Sore Headache without being shaken up and sickened all the next day. Cascarets work while you sleep, removing the tox-

ins, poisons and sour, indigestible waste without griping or inconvenience. Cascarets regulate by stimulating the liver and strengthening the bowel muscles. They never weaken or upset you like Salts, Calomel or violent Pills. Cascarets cost so little too.—Adv.

BATCH OF STEEL PREPARED JUST LIKE IRISH STEW; MANY INGREDIENTS USED

Washington, Oct. 1.—Because of the wide interest in the strike of steel workers the National Geographic Society has issued two bulletins on the steel industry. The first dealt with Bessemer steel; and the second one, based on a communication to the society, describes other production methods as follows:

"An open-hearth furnace looks a good deal like an ordinary bake-oven, but when one looks in through the water-cooled door, a vast difference appears. Instead of pans of fragrant, fat loaves of baking bread, there is an imposing pool of fiery liquid as bright as the filament of a high-power tungsten lamp, so dazzling that it can be examined with safety to the eyes only by those using colored glasses. Tinted here and there with streaks of soft blue and dainty pink, it looks like melted stick candy.

In preparing a battery of open-hearth furnaces for a charge, finely ground dolomite is shoveled in first. This melts like glass and fills up all cracks and crannies caused by the powerful heat of the preceding charge. Then a little train rolls up before the battery, and an electric crane dumps box after box of scrap metal from the cars into the furnaces. Off some distance is a great steel tank lined with fire-brick and full of liquid pig metal.

"When the scrap has melted and the contents of the cauldron are cooked enough; when the impurities have been driven out and tolled away, the fiery broth is 'seasoned,' as it were, with proper amount of carbon, spiegel, ferromanganese, tungsten, ferro-silicon, vanadium, or whatever is necessary to give the desired character to the resulting steel.

"Then comes the tapping of the furnace. An electric crane, the great ladle into position, a workman jams a crowbar through a clay-plugged hole at the base, and out flows the frenzied stream into the ladle. The slag rises to the top like oil on water and overflows, congealing on the outside of the ladle. Then the big crane picks up the ladle, swings it over to the pouring platform, where it in its turn is tapped and its purified fluid run off into molds.

"Great care has to be taken in handling these ladles, for the presence of a few drops of moisture when the hot metal is poured into one might cause an explosion and loss of life. Just before they receive the molten metal the ladles are heated nearly white hot in order that the steel or iron may not chill in them.

"As fast as they are filled the ladles are swung out over the ingot molds and the liquid steel is run into them and allowed to cool and take its solid

form. It is as if water were poured into molds and set in a refrigerating machine to freeze into blocks of ice. The only difference is that the 'freezing' point of steel is away above the boiling point of water.

"There are two other important types of steel furnaces—the crucible furnace and the electric furnace. In both of them the idea is to keep all hurtful gases and other impurities out and to regulate the addition of alloys and oxygen destroyers to a nicety. In a crucible furnace the metal is placed in graphite clay pots, covers are put over them, and the pots subjected to great heat. Silica is gradually absorbed out of the clay in the pots and transformed into silicon by coming into contact with the carbon in the steel. The silicon in its turn absorbs the oxygen and thus quiets the frothing, foaming contents of the ladle.

"The electric furnace acts in much the same way, its heat being so pure that there is no necessity of putting the steel in covered pots to keep out gases and other impurities. An electric arc, established between huge electrodes and the surface of the slag, produces the heat in such a furnace. By varying the materials used in the formation of the slag any impurity can be worked off and the glowing steel left as pure as crystal. The alloys are then mixed with the steel and it is made fit for any use desired. It is drawn off into ladles and poured into ingot molds, where it hardens, ready to be worked up into those things that constitute the last word in fine steel."

A Word About Prices

It is very rare indeed that we have occasion to discuss prices with our customers.

Today, as in the ups and downs of prices since 1914, and there have been more ups than downs—we are confident our prices are lower than the prevailing market for equal quality.

This policy is in line with our determination to sell at a fair profit rather than for all we can get. It is to your own interest to verify this statement of our policy by "Looking Over" our showing of Fall and Winter Footwear before buying.
